 Ph.D - Research and Evaluation, University of the Philippines Diliman, 2006  
 Part - Time Faculty (Dissertation1, Statistics), Graduate Studies, Institute of Education, Far Eastern University, Manila, 2017 - Present  
 Part - Time Faculty (Research, Human Anatomy, Ecology, Assessment of Learning), College of Education, University of the East Manila, 2015 - Present  
 Part - Time Faculty (Chemistry & Environmental Science, Biochemistry), College of Education, Art and Sciences, National University, Manila 2015 - Present  
 Member, Research and Development Foundation of College of Education  
 Member, Pi Lambda Theta (Philippine Chapter), Secretary (UP Diliman Node)  
 Member, Biology Teachers Association

**Presentation Date:** Friday 11 May 2018 10:30 AM - 12:00 PM

**Venue** SMX CONVENTION CENTER MANILA Function Room 4

**Presentation Title:** QUALITY ASSESSMENT OF STUDENT PERFORMANCE IN DENTISTRY

Evaluation of student performance is a major aspect of a teacher’s job. One way to do this is giving them a test. A good test should measure what it is supposed to measure at the same time must produces scores that are not affected much by chance. But are we constructing test which have these characteristics?  
 This lecture intends to equip teachers the confidence along with an understanding of the nature of the two characteristics of all quality tests (validity and reliability). This provides the framework that teachers use to make the best choices when designing student assessments. Test construction workshop is interspersed between comprehensive lectures.
