<b>Venue</b>	<b>SMX CONVENTION CENTER MANILA, Function Rooms 1 &amp; 2</b>
<b>Presentation Title:</b>	<b>ANTIMICROBIAL STEWARDHIP</b>
<b>ABSTRACT</b>	<p>The use of antibiotics must be in such that it improves patient outcomes, reduces microbial resistance, and decreases the spread of infections caused by multidrug-resistant organisms. The various dental diseases strongly related to a host of microorganisms has put a spotlight on dentistry with regard to microbial stewardship. Are dental clinics in Asia Pacific practicing antimicrobial stewardship that promote the appropriate use of antimicrobials such as antibiotics. This discussion on aims to determine best practices on antimicrobial Stewardship for replication in other countries and possible resources to improve antimicrobial stewardship. The discussion will be facilitated by experts in public health.</p>
